

3020

Compact and comfortable – with exceptionally smooth sliding technique

Frame: Innovative metal frame with automatic open/close system; 7 ribs additionally reinforced with glass fibres (windproof); robust, 3-part hexagonal black metal shaft

Handle: Straight, sporty handle made from matt black plastic; comes with a nylon wrist strap and an integrated trigger button for opening and closing

Canopy and case: Light and robust canopy made from matt black polyester; case made from the same material with black inner lining, practical oval opening and piping

For ladies and gentlemen

Featuring an automatic open/close system, this handy pocket umbrella boasts an innovative and particularly smooth sliding technique. This enables the shaft of the umbrella to be pushed together very easily after closing, with minimal effort. What's more, thanks to its light weight, the pocket umbrella sits pleasantly in the hand. It can even be carried comfortably for longer periods of time.
