

32Z7

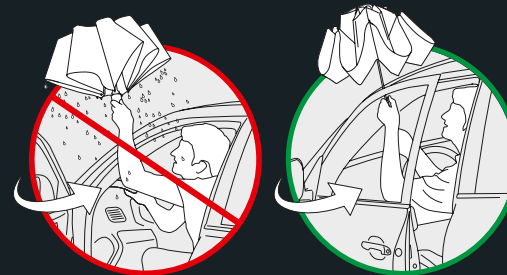

Inverted open and close function – a real improvement for everyday life

Frame: Innovative, durable metal frame with automatic open/close system; 8 ribs additionally reinforced with glass fibres (windproof); robust, 3-part hexagonal black metal shaft

Handle: Straight, sporty handle made from matt black plastic; comes with a wrist strap and an integrated trigger button for opening and closing

Canopy and case: Light and robust canopy made from matt black polyester; case made from the same material as the canopy with black inner lining, oval opening and piping

For Ladies and Gentlemen

Perfect for the car! This compact folding umbrella opens and closes opposite of standard ones. This means that the raindrops no longer drain downwards when closing the umbrella. They are caught in the top layer so that there is no more unexpected deluge when getting into or out of your vehicle.
